

STATEMENT ON CORONAVIRUS

March 2021

In the light of recent government announcements and the current COVID 19 situation, the White Horse offices are current closed and staff are working from home. Should you wish to get in touch with us and do not already have a normal contact within the organisation then please email marylee.wollaston@whitehorseltd.co.uk.

It is envisaged that CPD and AAT courses will continue online until week commencing 21 June 2021 in line with the government roadmap for exiting lockdown, although the situation will be kept under review.

CPD COURSES AND PRACTICAL TRAINING COURSES

All CPD and Practical Training Courses up until the end of June will take place online only. Dates and further details can be found on the website.

AAT/APPRENTICESHIP PROGRAMMES

Teaching for all levels is taking place via a virtual classroom and will proceed according to the existing timetables. AAT exams are still running, depending on individual circumstances, and White Horse staff will inform students of any new arrangements or date changes. New students are able to start with us as always but should enquire directly to us to confirm arrangements. We have taken into consideration government guidelines and the health and welfare of staff and students, many of whom travel some distance to be with us, and have decided that face to face classroom courses will resume with effect from week commencing 21 June.
